Strattec Report by Diane Neely

We have settled the two grievances that were set forth when Milt Dawson was the Union Grievance Representative. As your new Union Grievance Representative, there is a point that I would like to stress to each and every one of my union brothers and sisters. If you have a problem with another union brother or sister, do not hesitate to get the union involved. That's one of the reasons we are here, to help settle differences among ourselves. Once it involves the company, it could be a different story in itself. I said this be-

cause I have heard people talk among themselves and say that you should never go to the union against another brother or sister. But in reality it is the opposite, you should get the union involved if there is a problem. Issues could get out of hand by not coming to us. If the company gets involved, then it becomes a bigger issue. So if we can work together and solve problems among ourselves without involving the company, please do so.

Things are looking good here at Strattec. Production is up and that is a

good thing. Let's keep up the good work, but there is one issue that we have a problem with and that is our SCRAP! We need to come up with ways to try to solve a problem that has been around for a long time. I hope this is one area where we can work together and come up with ways to try to reduce our SCRAP problem. Remember that SCRAP, reduces our EVA.

In Solidarity,
Diane Neely
